

BSc (Hons) Supply Chain Management

A Career in Supply Chain Management

With businesses operating on a global scale, understanding the implications of international supply chain management is crucial for students who aspire to work in a business environment. The Supply Chain Management program offers insights into cross-border, cross-cultural, and regulatory complexities, equipping students with models and theoretical perspectives to navigate tensions successfully, positioning them as specialists in this field.

Completing the Supply Chain Management program not only opens diverse career pathways but also provides students with valuable insights into potential career choices, such as:

- Procurement Management
- Supply Chain Analyst
- Logistics Management
- Operations Management
- Inventory Management
- Quality Manager
- Demand Planner
- Warehouse Management

Upon program completion, students can progress to the MSc in Supply Chain Management, extending their understanding of international supply chain operations and enhancing employability and career options.

About ARU College

ARU College offers undergraduate and postgraduate pathways at Anglia Ruskin University (ARU). You may benefit from a pathway degree at ARU College if you do not meet the requirements for direct entry, you have not studied the subjects required for your chosen degree, or you have spent some time out of education.

Following completion of the ARU College pathway, you will benefit from direct and smooth entry onto an ARU degree. Our Business Pathway equips both numbers and people-oriented individuals to grasp local and global business dynamics, offering a diverse learning environment in the award-winning business school at ARU Chelmsford and Cambridge.

Why study with the School of Management

Our Management courses provide a solid foundation through multi-disciplinary modules, offering a tailored approach to knowledge acquisition. The theory you learn becomes a springboard to transforming business and society. Throughout your studies, you can take part in employability sessions and business competitions to give you the necessary networking and employability skills and knowledge to go confidently into the career you choose.

Many of our business courses are accredited but this means more than just an extra qualification. Being accredited and adhering to the latest standards not only strengthens your degree with resources, activities and guidance but also shows your future employers that you are serious about your choice of career.

Placement Opportunities

As a full-time undergraduate student, you can undertake a placement as part of your degree, giving you invaluable business experience, the opportunity to apply and enhance your skills, both old and new, while creating lasting professional relationships. You'll gain confidence and motivation and come back with ideas for your dissertation. It can also help you achieve a better class of degree in your final year. Placements are not guaranteed and the responsibility of finding a placement rests with you.
